

Quarterly Newsletter

July–September 2026

Impact Hub Dhaka is a coworking space, innovation hub and community for entrepreneurs, organisations and changemakers in Bangladesh. As part of the global Impact Hub network, we provide spaces and opportunities to work, connect and collaborate.

Impact Hub Dhaka Turned Six

This September, we celebrated six years of Impact Hub Dhaka with three days of activities across our Mirpur and Banani spaces, bringing together members, partners, friends and the wider community. The celebrations began with a special lunch attended by Nobel Peace Laureate (2006) Professor Muhammad Yunus, along with our members and ecosystem partners. Across both hubs, the celebrations continued with creative sessions, open conversations, poetry and film screenings. Over three days, the anniversary brought together the people who have been part of Impact Hub Dhaka's journey over the past six years.

Private Sector Roundtable on Agricultural Innovation

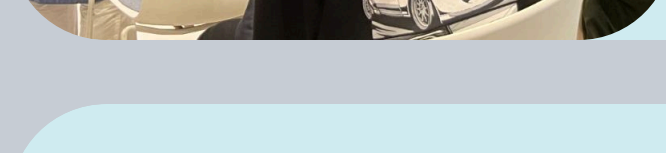

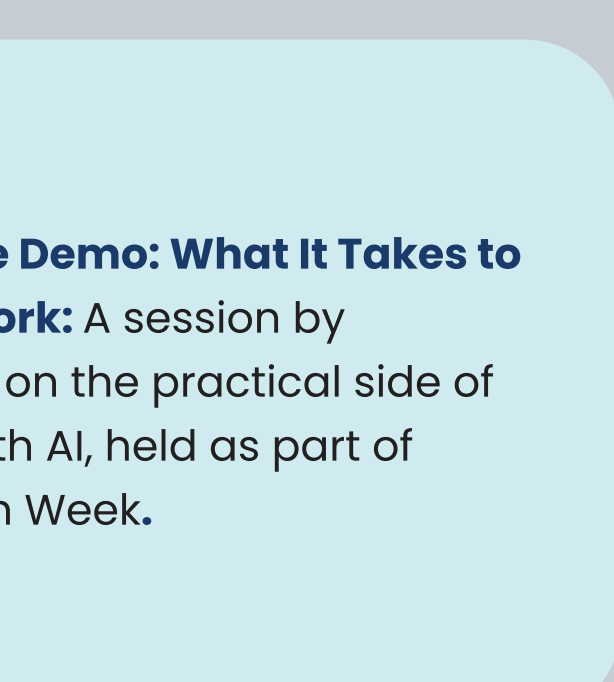

On 16 September, Impact Hub Dhaka welcomed private sector and agriculture leaders for a roundtable on Building Bangladesh's Private Sector Innovation Landscape in Agriculture at our Banani hub. Organised by YY Ventures, the session also brought together representatives from the Embassy of the Kingdom of the Netherlands, and YY Ventures. The discussion focused on agricultural innovation, stronger value chains and opportunities for collaboration.

Strengthening Community Through Learning and Events

This quarter, Impact Hub Dhaka hosted a series of events and workshops to support learning, skill-building and knowledge sharing across different areas of work. From digital fashion and AI to entrepreneurship, leadership and financial management, sessions including the CLO Software Skill Test, Beyond the Demo: What It Takes to Make AI Work, Founders' Table, Lead Forward and The Founder's Guide to Financial Clarity brought founders, professionals and community members together to learn, share experiences and make connections.

CLO Software Skill Test: An event for aspiring fashion professionals to test their 3D digital fashion design skills using CLO.

Beyond the Demo: What It Takes to Make AI Work: A session by Talentier.io on the practical side of building with AI, held as part of Dhaka Tech Week.

Founders' Table: An event by PAUSE.dhk for founders, professionals and creatives to meet, share experiences and exchange ideas.

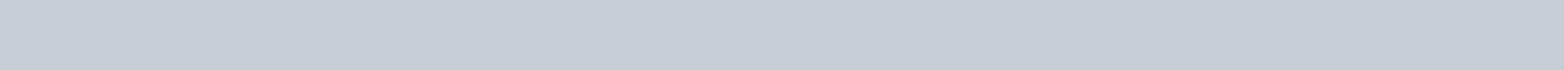

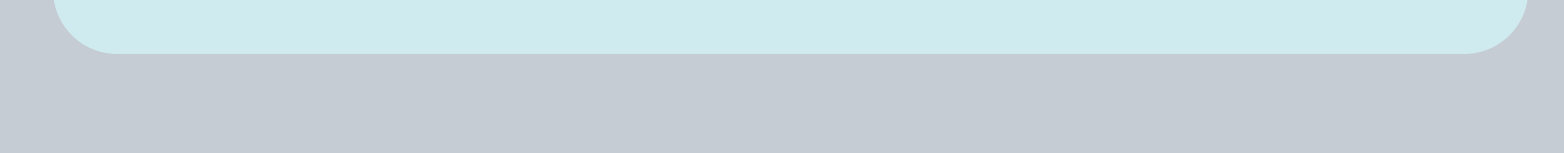

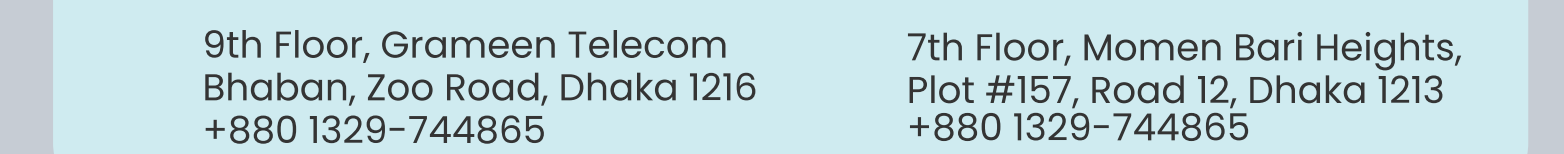

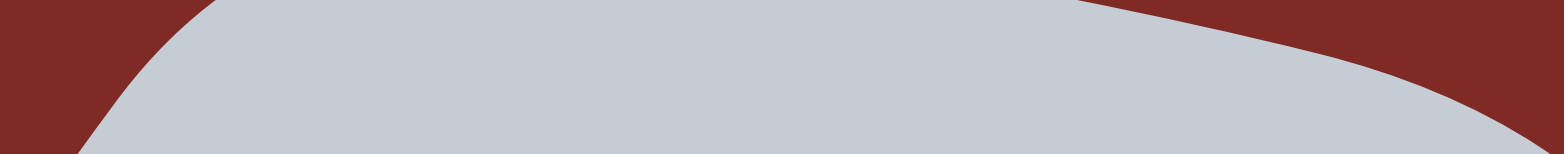

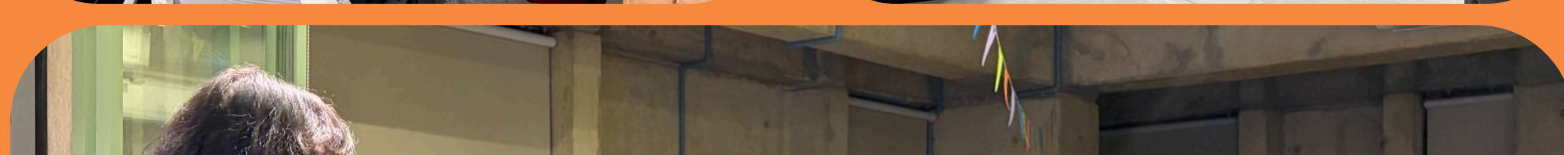

Lead Forward: A session by Working Women Bangladesh on leadership, confidence and career growth for women.

The Founder's Guide to Financial Clarity: A workshop on cash flow, financial planning and business decisions.

Orange Corners Bangladesh: Supporting Entrepreneurs Through Their Journeys

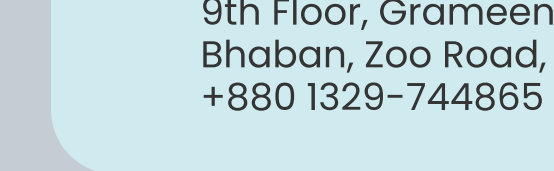

Impact Hub Dhaka hosted a series of events and sessions for Orange Corners Bangladesh entrepreneurs throughout the quarter. We hosted an alumni reception for Cohort 6 at our Mirpur hub and the Founders' Fair at our Banani hub. Cohorts 7 and 8 continued their incubation journeys through training, mentorship and coaching sessions held across both our hubs.

Team Updates

Our Team is Growing!

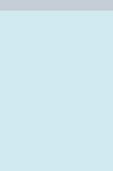

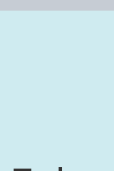

Impact Hub Dhaka welcomed a new intern to the team, bringing fresh energy and new ideas to our day-to-day work.

Md Abdur Rahman Shifat

Intern
